2A-66, KP14, KIIT, Patia, Bhubaneswar, Odisha - 751 024, India

i Born on March 10, 2003

I simply enjoy technology and learning new things. I know graphics designing, a bit of video editing, and, of course, coding. I recently started practising Leetcode daily and solving the problems of the day. I have also been studying DSA and Python in my free time. I have decent experience using Figma and Photoshop for the graphics design domain. I am applying for an internship to get some work experience in tech jobs and improve my own knowledge of software development.
